
Project-level co-occurrence network of research turns
Heritage objects
Research turns
Methodological orientations
Application contexts
Architectural heritage (36)
Industrial heritage (29)
Cultural landscapes and linear heritage (28)
Integrated (19)
Rural and agricultural heritage (12)
Natural heritage (11)
Intangible and living heritage (6)
Archaeological heritage (1)
11
Object-conservation turn
19
Digital-computational turn
46
Spatial activation turn
44
Socio-cultural turn
9
Risk-resilience turn
12
Hybrid turn
1
Traditional continuity
Mixed methods (55)
Model-based evaluation (35)
Spatial analysis (20)
Historical archives (12)
Digital modeling (8)
Social survey (7)
Experimental testing (4)
Intelligent computing (1)
Knowledge functions
Intervention and decision (46)
Mechanism explanation (28)
Diagnosis and evaluation (23)
Meaning interpretation (16)
Tools and platforms (14)
Integrated function (12)
Prediction and simulation (2)
Recording and description (1)
Value interpretation (128)
Conservation intervention (105)
Digital platforming (80)
Spatial governance (135)
Community participation (114)
Culture-tourism integration (112)
Risk adaptation (55)
